REDLINE CHAMPIONSHIPS INTRODUCES THE REDLINE COMPETITION GUARANTEE

New initiative gives programs greater confidence in their competition experience.

AMARILLO, TX – SEPTEMBER 16, 2026 — Redline Championships today announced the launch of the **Redline Competition Guarantee**, a new initiative designed to give all-star programs greater confidence when choosing their Redline Championships events.

The program guarantees competition in designated **Prep and Elite divisions**, selected using participation data from the previous Redline Championship season and divisions that demonstrated consistent competitive depth.

IF WE GUARANTEE IT, WE STAND BEHIND IT

If a team competes in a designated Guaranteed Division and is the **only team competing in that division**, Redline Championships will provide a **registration credit equal to the amount paid for that team's eligible registration fee**, applicable toward another Redline Championships event.

The guarantee also remains in effect if Redline creates a division split, including **D1/D2, team-size, A/B, or other event-specific splits**.

“When a program chooses Redline Championships, they are putting their athletes, coaches and families on our stage, and we take that responsibility seriously. We believe teams deserve the opportunity to compete — not simply take the floor alone. The Redline Competition Guarantee is our way of putting real commitment behind that belief. When we say a division is guaranteed, we stand behind it.”

— Jeb Harris, Founder, Redline Championships

BUILT ON DATA. DESIGNED FOR COMPETITION.

The initial Guaranteed Divisions were identified through an analysis of previous-season participation and competitive depth. Redline Championships will continue working to build deeper divisions through **event growth, program outreach, recruiting and marketing**.

The Redline Competition Guarantee is being introduced as a **pilot program**, with Guaranteed Divisions, eligibility requirements and credit structure subject to change based on participation and operational needs.
